DESCRIPTORS: *Reinforced concrete, *Structural
shells, Concrete, Construction, Structures, Storage,
Design, Construction materials industry, Hydro-
electric power systems.

This book summarizes experience in the erection of
hydrotechnic structures with applied protective shells.
Technological problems in the manufacture of precast
units for protective shells in specialized plants are
dealt with in detail. Storage, design, and erection

DESCRIPTORS: "Shock waves, "Gas flow, Viscosity,
Heat transfer, Bodies of revolution

An analysis is made of the case of the symmetric super-
sonic flow of a gas past a body of revolution or a planar
profile with the formation of a detached shock wave in
front of it. Results show that the action of viscous
